

Dr. Saad Gilani
Regional Technical Manager
Nutrition and Biosciences

Dr. Gilani completed his BSc (Hons) in animal husbandry from Pakistan, received the NUFFIC scholarship for MSc in ruminant nutrition and dairy science and technology at Wageningen university. He then moved to the UK and worked for a Pet food business as a nutritionist and a marketing assistant following which he joined HST feeds as a nutritionist for the poultry and ruminant business. Moving on as a nutritionist at Trouw Nutrition GB he was subsequently selected for a PhD by Australian Co-operative Research Center (CRC) scholarship. Dr Gilani has worked on the biomarkers to assess gut health in chickens and published several papers in peer reviewed journals. As a student at Adelaide University, he also liaised with CSIRO (Commonwealth Scientific and Industrial Research Organization) and SARDI (South Australian Research and Development Institute) in Adelaide and completed his PhD with the Deans commendation award. He currently holds the position of Technical Manager providing nutritional and technical support to UK, Ireland, German and Scandinavian customers on behalf of DuPont enzymes and gut health.
